EXECUTIVE SUMMARY

Bombay Assay Company, as a BIS-recognized hallmarking center and exclusive partner to Titan Company Limited, deserves a digital presence that matches its industry-leading credentials. Currently, your website contains placeholder content and outdated design elements that don't reflect BAC's 10+ million pieces annual capacity and partnership with India's premier jewelry brands.

Rezinix Technologies proposes a complete website redesign using modern Next.js technology to deliver a fast, professional, and easily manageable platform that will:

- Establish credibility matching your Titan partnership
- Streamline proficiency testing registration and certification
- Enable online job applications through careers portal
- Enable your team to manage content independently
- Position BAC as the benchmark in jewelry quality control

CURRENT CHALLENGES

Analysis of bombayassay.com reveals:

- **Placeholder Content** - Lorem Ipsum text and generic names undermine credibility
- **Irrelevant Sections** - References to 'Industrial Coatings' and 'Storefront Installations'
- **Outdated Design** - Visual appearance doesn't match modern industry standards
- **Limited Functionality** - No online service registration or content management system
- **Poor Mobile Experience** - Layout not optimized for smartphone users
- **Missed Opportunities** - BIS recognition and Titan partnership not prominently featured

PROPOSED SOLUTION

Modern Next.js Website + Custom Admin Dashboard

A complete redesign delivering:

- ✓ **Professional Design** - Clean, modern interface reflecting BAC's premium positioning
- ✓ **Mobile-First Approach** - Optimized for all devices
- ✓ **Proficiency Testing Portal** - Online registration and certificate download system
- ✓ **Careers Portal** - Job listings and application management system
- ✓ **Content Management** - Easy-to-use admin panel for blog posts and updates
- ✓ **Fast Performance** - Lightning-fast loading times for better user experience
- ✓ **SEO Optimized** - Better visibility in search results

DELIVERABLES

1. Website Pages (12+ Pages)

Homepage: Hero section with professional messaging, services overview, client showcase (Titan, Caratlane, Abharan), statistics counter, location finder, contact section

Service Pages (4): Hallmarking Services • Testing & Assaying (XRF, Fire Assay) • Total Quality Control • Diamond Certification

Company Pages: About BAC (team, history, BIS certification) • Facilities Gallery • Contact Us • Careers (job application portal)

Dynamic Pages: Blog/News Listing • Individual Blog Posts (unlimited) • Location Template (for all 5+ centers)

2. Custom Features

Proficiency Testing Registration Portal

- Online registration form for proficiency tests
- Certificate generation system
- Certificate download portal for registered users
- Email notifications
- Application tracking number

Careers Portal

- Job listings management
- Online job application form
- Resume/CV upload functionality
- Application tracking for HR

Admin Dashboard (CMS)

- Secure login
- Blog post creation with rich text editor
- Image upload and management
- View proficiency test registrations
- View job applications
- Certificate management
- Easy content updates without technical knowledge

3. Professional Elements

- WhatsApp chat integration
- Google Maps integration
- Smooth scroll animations
- Newsletter subscription
- Mobile-responsive design
- Fast page loading (<3 seconds)

PROJECT TIMELINE

Total Duration: 4-5 Weeks

Phase	Duration	Deliverable
Week 1	5 days	Design mockups for homepage + key pages
Week 2-3	10 days	Website development + all pages
Week 3-4	7 days	Admin dashboard + backend setup
Week 4-5	5-7 days	Testing, deployment, training

Key Milestones:

- Day 5: Design approval
- Day 15: Homepage review
- Day 22: Complete site preview
- Day 30: Go-live
